**Subject:** Webinar on Ocean Acidification Monitoring in NEP Study Areas

Good afternoon NEP Directors,

You may recall that I mentioned during our February conference call that EPA would be hosting a webinar on ocean acidification monitoring in NEP Study Areas. I am happy to announce that we have set a date. The May 19th webinar will be led by Brian Rappoli, Marine Pollution Control Branch/OCPD and the session will run from 1:00 to 3:00pm EST.

The purpose of the webinar is for NEP staff and their collaborators to discuss the status of their ocean acidification monitoring efforts and exchange "lessons learned." Representatives from seven NEPs (Casco Bay, Coastal Bend Bays, Barnegat Bay, LIS, San Francisco Bay, Santa Monica Bay, and Tampa Bay) will be giving brief presentations on their monitoring efforts.

If this webinar would be of interest to you or members of your staff, we would welcome

your participation. Provided below is the call in information.
